SCALE

TRAIL MATRIX

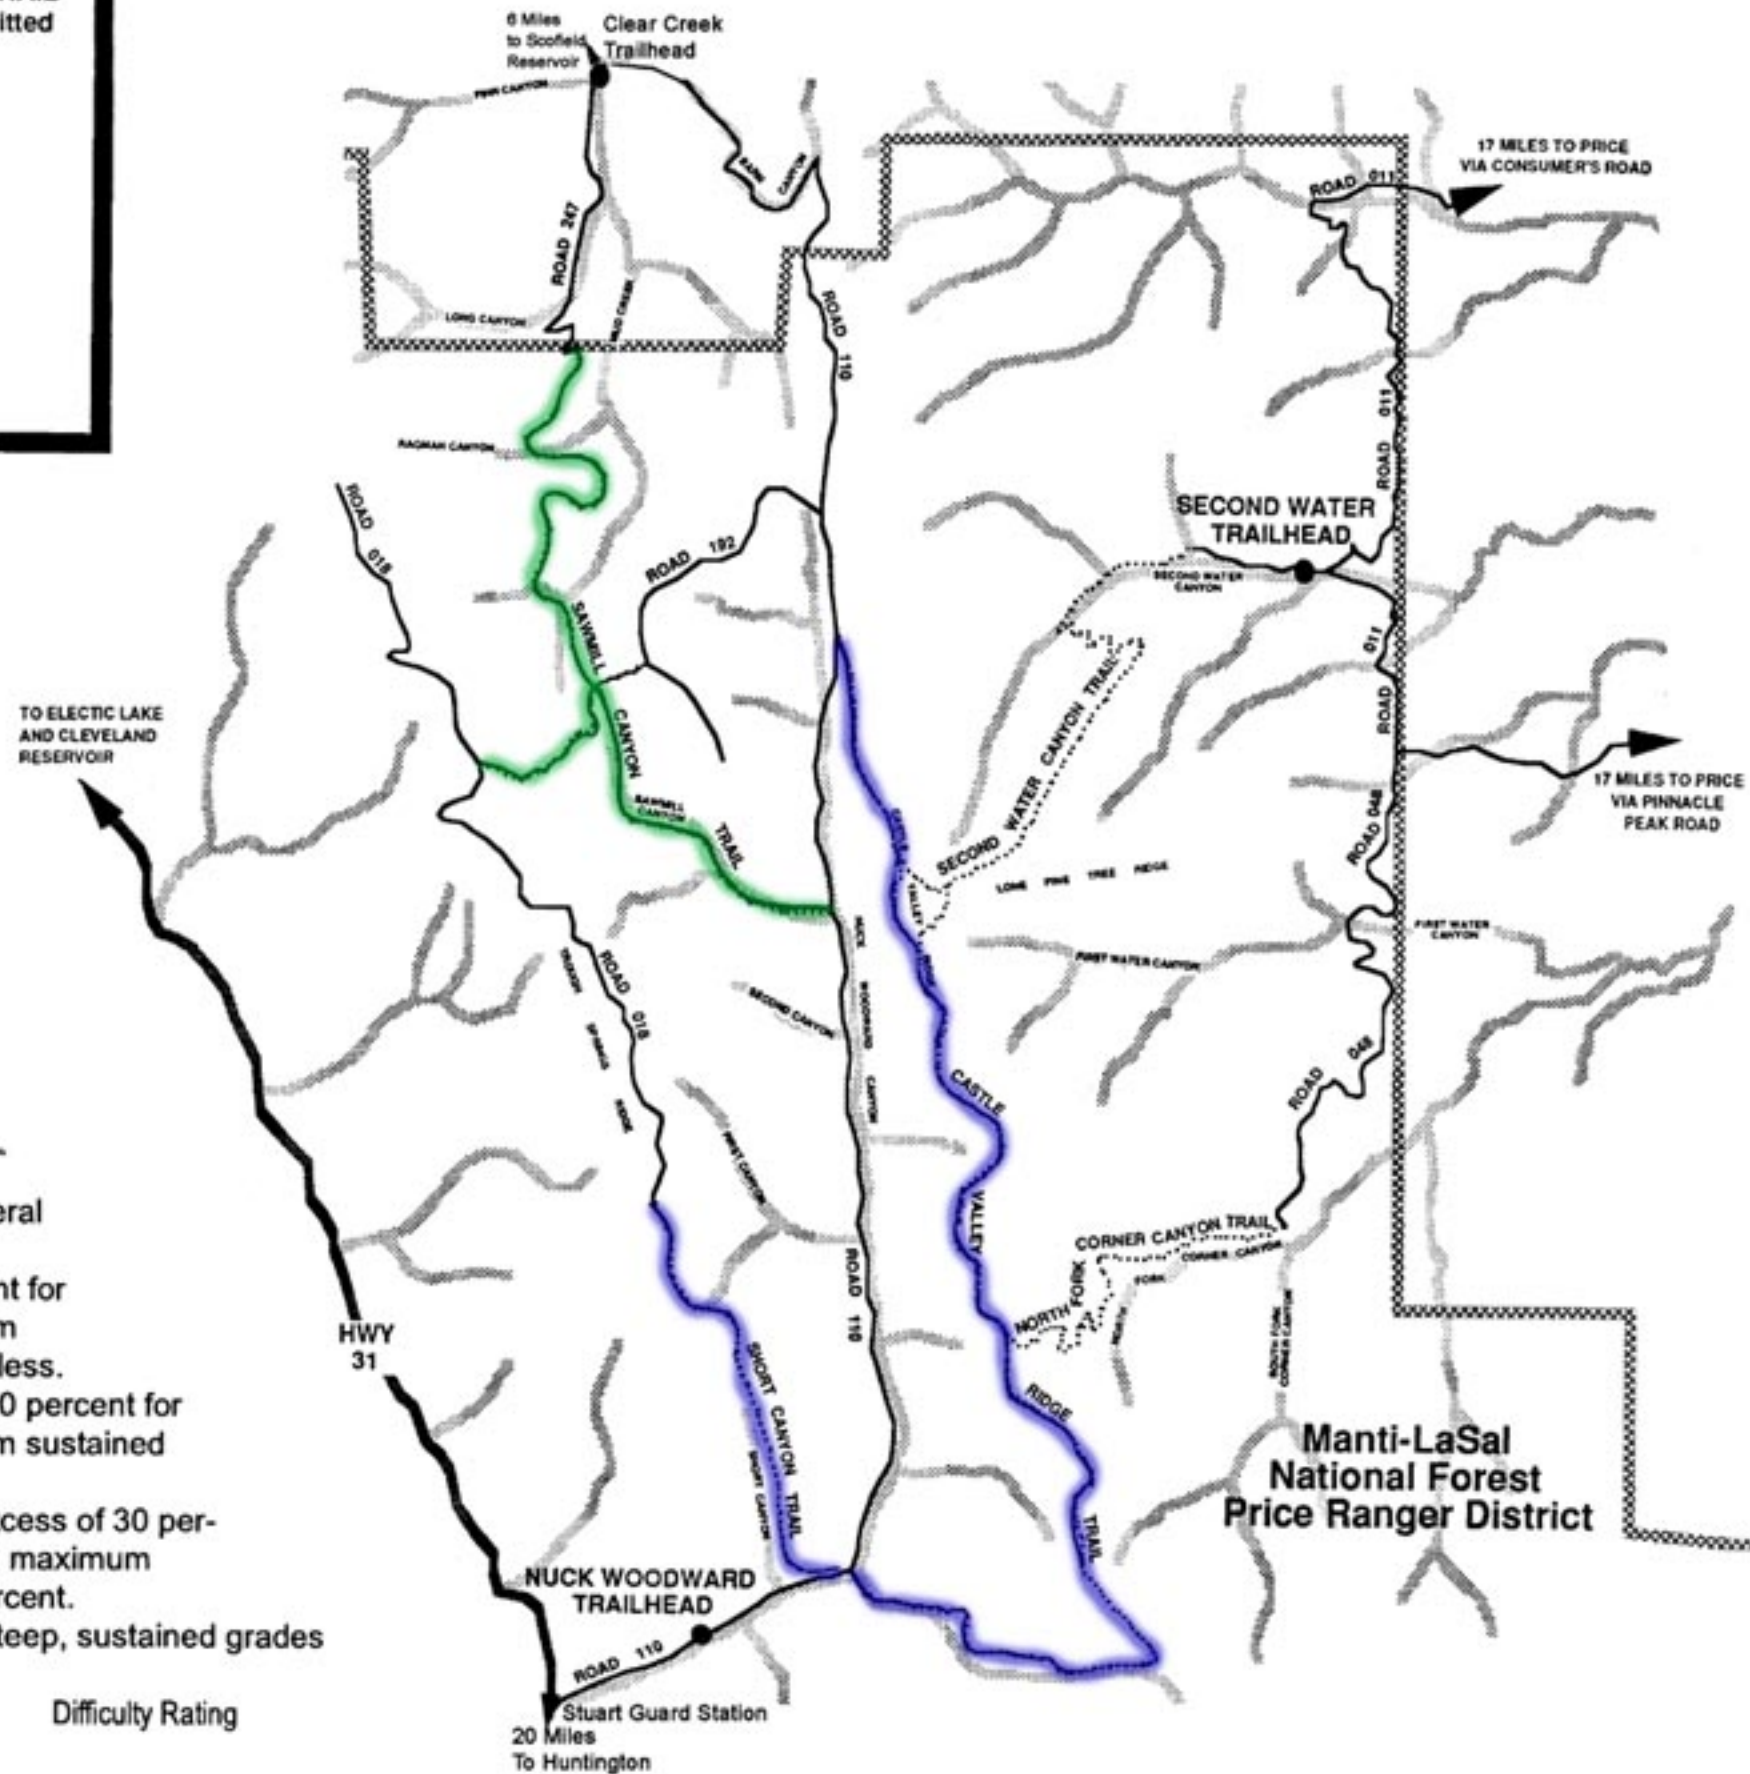

Each trail is mapped with its rating for hiker use.

For bicycle or horse use, refer to trail table at the bottom of the page.

Users must realize trail difficulty varies with mode of travel and physical condition. General guidelines for difficulty:

-  **Easy**— Maximum grade up to 20 percent for 100-200 feet at a time, maximum sustained grade is 5 percent or less.
 -  **More difficult**— Maximum grade up to 30 percent for 200-300 feet at a time, maximum sustained grade is 10 percent.
 -  **Most difficult**— Maximum grade is in excess of 30 percent for up to 500 feet at a time, maximum sustained grade exceeds 15 percent.
- NR— Not recommended — Extremely steep, sustained grades

Trail name and number	Length (miles)	Elevation Gain (feet)	Difficulty Rating		
			Hike	Bike	Horse
Second Water Canyon #407	4.0	1840		NR	
Castle Valley Ridge #068	9.0	1200			
Short Canyon #064	2.4	1800			
Sawmill Canyon #175	4.0	640			
Corner Canyon #400	2.0	1600		NR
